

Postgraduate Year One (PGY-1) Pharmacy Residency Program

Program Overview

Since 1953, the VA Ann Arbor Healthcare System (VAAHS) has provided high quality, cost-effective, tertiary care to Veterans residing in southeastern Michigan and northwestern Ohio. The main campus located in Ann Arbor serves as a teaching hospital and referral center for specialty care, operating 102 acute care beds and 40 Community Living Center (extended care) beds. In fiscal year 2019, the VAAHS completed more than 830,089 patient encounters.

The purpose of the VAAHS PGY-1 Pharmacy Residency Program is to build on the Doctor of Pharmacy education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY-2) pharmacy residency training.

The American Society of Health-System Pharmacists (ASHP)-accredited PGY-1 Pharmacy Residency Program at VAAHS provides residents with an exceptional opportunity to progressively develop their clinical skills and become pharmacy practice leaders. The program provides a balanced set of inpatient and outpatient learning experiences with additional opportunities in education, research, and administration. The VAAHS offers flexibility to accommodate personal and professional goals when creating the curriculum for each resident. In addition to pharmacy practice training, pharmacy residents receive a clinical instructor appointment with the University of Michigan College of Pharmacy and have the option to participate in a teaching certificate program.
